

MEDIGUARD ANTIMICROBIAL SURFACE CLEANER SPRAY APPLICATION (FOGGER)

CODE: 100063180

REVISION : 01

DATE: 02 June 2020

GENERAL DESCRIPTION

Low viscosity disinfectant, an excellent antiseptic, antibacterial and viral spray. MEDIGUARD Anti-Microbial Sanitising Spray is a low viscosity disinfectant, an excellent antiseptic, antibacterial and viral spray in an easy to use aerosol container to effectively sanitise surfaces.

USES AND PROPERTIES

Broad spectrum, fast-acting antimicrobial effect
Disinfects surfaces
Safe for skin
Meets compliant standards
Easy to use

Usage Instructions

- ☐ Close any open doors or windows in the space you wish to disinfect. Eliminate as much air movement as possible by turning off fans and air conditioning units. No pets or people should be present in the space being disinfected when the fogger is activated. Place the canister on a few sheets of newspaper in a central location; a higher position on a table or counter can allow the fogger to reach a larger area.
- ☐ Once the area is prepped and the canister is correctly placed, shake the fogger can well and set the can in the middle of the newspaper. Next, simply push the button or tab till it locks, and quickly leave the room. The fogger will release a powerful fog that disperses disinfectant content throughout the entire space. After hanging briefly in the air, the fog will settle on various surfaces, disinfecting everything it touches.
- ☐ It is safe to return to the room one hour after treatment. Once the appropriate interval has passed, you can return to the room and collect the canister and newspaper. Many canisters are recyclable, so be sure to dispose of the product properly. It is recommended to open a few windows or doors to air out the room after treatment is complete.

TECHNICAL DATA

Active Ingredient: Chloramine-T
Contains Alcohol
Color: Clear
Fragrance: Chlorine like
pH: 6.0-8.0
Viscosity: 200 cps

SAFETY INSTRUCTIONS

Avoid standing directly over aerosol when releasing spray

Flammable – keep away from heat / sparks / open flames or hot surfaces. No smoking

Do not spray onto an open flames or other ignition source.

Pressured container, do not pierce or burn, even after use.

In case of fire use water, carbon dioxide or dry chemical for extinction.

Protect from sunlight and do not expose to temperatures exceeding 50°C

When using this product do not use in or near eyes.

If accidental contact with eyes, rinse immediately with plenty of water and seek medical advice.

Always keep out of reach of children. Harmful if swallowed. Seek medical attention and do not induce vomiting.

Discontinue use if irritation and redness develops. If condition persists for more than 72 hours consult a doctor.

Avoid contact with broken skin.
